

# Academic Freedom on Evolution

"A FAIR RESULT CAN BE OBTAINED ONLY BY FULLY STATING AND BALANCING THE FACTS AND ARGUMENTS ON BOTH SIDES OF EACH QUESTION." -CHARLES DARWIN

On Charles Darwin's 200th birthday (Feb. 12), students everywhere can speak out against censorship and stand up for free speech by defending the right to debate the evidence for and against evolution. Let's make "Darwin Day" Academic Freedom Day!

On Charles Darwin's birthday (February 12th), students everywhere can speak out against censorship and stand up for free speech by defending the right to debate the evidence for and against evolution. Let's make "Darwin Day" Academic Freedom Day!

Across the country academic freedom on evolution is being trampled every day. Scientific research challenging Darwinism is thwarted. Teachers trying to discuss these challenges with their students are censored. Even students are subject to harassment and prejudice for expressing views that are skeptical of Darwinism. Scientists, educators, students need your help to protect their academic freedom rights.

**Please join us in celebrating Academic Freedom Day, February 12th.**

We want student groups and clubs to organize simple Academic Freedom Day events, on or about February 12th. These events can be as simple as having a table on campus where people can sign the Academic Freedom Petition and find out more about academic freedom on evolution. Or, the events can be more elaborate including screening *Expelled: No Intelligence Allowed*, or *Icons of Evolution*, on campus.

Visit [www.academicfreedomday.com](http://www.academicfreedomday.com) for more information.
