Order DVDs at [Intelligentdesign.org](http://Intelligentdesign.org), [Access Research Network](http://Access Research Network), or [www.go2rpi.com](http://www.go2rpi.com).

### DVD Documentaries about Intelligent Design (ID) and Darwinian Naturalism

- [Darwin’s Dilemma: The Mystery of the Cambrian Fossil Record](#) (Illustra, 2009). Read this article for background: Stephen Meyer, et. al., “[The Cambrian Explosion](#).”
- [Expelled: No Intelligence Allowed](#) (Premise, 2008). Ben Stein investigates why many intellectuals suppress the scientific theory of intelligent design. Learn about the struggle for academic freedom. Read John West’s book [Darwin Day in America](#) for background.

## 6. Peer-Reviewed Publications

- Discovery Institute maintains an annotated [list of peer-reviewed publications](#) that support intelligent design. Critics of intelligent design often claim that design advocates don't publish their work in peer-reviewed scientific journals, as if such journals represented the only avenue of legitimate scientific publication. Some of the most important and groundbreaking work in the history of science was first published not in scientific journal articles but in scientific books, including Darwin's *Origin of Species*. In any case, the scientists who advocate the theory of intelligent design have published their work in a variety of appropriate technical venues, including peer-reviewed scientific journals, peer-reviewed scientific books (some in mainstream university presses), trade presses, peer-edited scientific anthologies, peer-edited scientific conference proceedings and peer-reviewed philosophy of science journals and books.
- The peer-reviewed publications identified on Discovery Institute's list are not religious; they do not argue for God's existence. Even so, the scientific inference to intelligent design has religious implications (as do materialistic theories such as Darwinism). To explore fully the relationship between the scientific evidence for design and the God hypothesis requires venturing into fields outside of the natural sciences, such as philosophy, history, and theology.

## 7. Public Appearances

- [Book Party: Stephen C. Meyer, \*Signature in the Cell\*](#) on C-SPAN's Book TV. An event at the Seattle Art Museum hosted by Discovery Institute (July 21, 2009).
