

REASONS

new conversations on science and faith

FAITH BIBLE CHURCH | 2019 | THE WOODLANDS, TX

May 3 - 4, 2019

*Do you ever have the feeling that science conflicts with faith?
You are not alone.*

*But what if there is another perspective?
What if the discoveries of science in fact support the existence of and belief in God?*

Join us at **Reasons 2019** to hear leading academics in various fields of science, the history of science, and apologetics provide the latest compelling evidence for the interdependence of science and faith.

Also included: special breakout sessions for students, parents, and educators!
